

Combined Rail Unions'

10 July 2019

Circular: 80/19

Ref: BULK Vote NO

Your Vote Counts!

Dear members,

You would be aware that Aurizon Bulk Management team have been out and about state wide trying to sell their proposed Enterprise Agreement without the support of the Unions for obvious reasons.

We anticipate that a ballot will commence in the near future and would like to remind everyone that it is critical that you cast your vote particularly if you are going to vote "No" to the inferior document. When the ballot is finalised the count will come down to 50% plus one of all the people who actually participated in the ballot.

If only 5 employees vote and 3 vote yes, this will be your agreement for the next 4 years!

If you are opposed to the proposed Aurizon Bulk Enterprise Agreement and do not vote you are in essence assisting the company to win the ballot. Please encourage all your workmates to vote in this very important ballot. The AFULE and the RTBU are preparing ourselves to return to the bargaining table once the workforce has had their chance to send a clear message to the company.

In Solidary,
