Sonic Health Medicals & Associated Tests

Dear members,

Your state office has been aware for some time that there have been issues with the way Sonic Health have dealt with individual Traincrew members.

These matters have been raised with QR management individually as they arise, however it appears that there is no appetite from QR to change health providers and no appetite from Sonic Health to treat Traincrew with more respect.

As a result, we are calling on AFULE members to email your state office via traincrew@afule.org.au describing what your experiences have been with Sonic Health.

You can provide as many details as you see fit and can request to remain anonymous should you also wish.

It is the intention to present a dossier to senior QR management containing your events, calling for change.

We ask that you provide your experiences by **Close of Business Friday 16 December 2022**.

If you would like more information, please contact your local AFULE representative or your state office on 3844 9163 or traincrew@afule.org.au

In Solidarity,

Mick McKittrick,
State Secretary
